# IT Hardware Supply

Supply, Configuration and Installation for Malaysian Businesses

Dell - HP - Lenovo - Fortinet - Synology - Ubiquiti - TP-Link

## About This Service

We do not just sell hardware - we advise on the right specifications for your needs, procure from authorised channels, configure everything before delivery and install it at your premises so your team can use it from day one. Every hardware purchase comes with a manufacturer warranty, a configuration record and post-installation support from our engineering team.

## Why Buy Through Cybergate Instead of a Consumer Store

Consumer stores sell hardware. We sell hardware that works for your business. Every device is pre-configured with your domain, software and security settings before delivery. We source only from authorised distributors so warranties are valid and enforceable. We install onsite and stay until your team confirms it works.

## Our Supply and Installation Process

### 01

#### Enquiry and Spec

Tell us what you need or describe your use case. We advise on the right models and specs. Honest recommendations, no upselling.

### 02

#### Quotation

Detailed written quotation within 24 hours with specs, warranty, delivery timeline and installation scope. You approve first.

### 03

#### Pre-Configuration

Devices configured with your domain, software and security settings before delivery. Arrives ready to use on day one.

### 04

#### Delivery and Install

Engineer delivers and installs at your premises, tests everything and provides a handover checklist. We stay until all is confirmed.
