What Makes Cybergate SEO Different

Most agencies sell you a package and disappear. We provide monthly reports showing exactly where each keyword ranks, what work was done and what is planned next. Every plan includes a documented ranking commitment. Free website support and maintenance is included throughout the entire SEO period - because technical issues directly hurt rankings.

How Our SEO Engagement Works

01

SEO Audit and Keyword Research

We audit your website for technical issues and research the exact keywords your customers search in Malaysia. Keywords mapped to pages. Quick wins identified alongside long-term goals.

02

Technical and On-Page Fixes

Technical SEO issues fixed. All target pages optimised for assigned keywords. Meta titles and descriptions rewritten. Header structure improved. Updated sitemaps submitted to Google.

03

Content and Authority Building

Monthly SEO articles published for your keyword clusters. Backlinks built from Malaysian and regional sources. Off-page signals optimised to build your domain authority over time.

04

Monthly Report and Optimisation

Clear monthly ranking report: keyword positions, traffic trends and work done. Strategy adjusted based on what is gaining traction and what needs more focus in the coming month.

The Ranking Commitment - What It Means

Every plan includes a documented commitment: minimum keywords on Page 1 within 12 months, subject to competitiveness and industry conditions. Assessed during initial keyword research.

If your industry is highly competitive, we will advise you upfront on the right plan.

* Free website support and maintenance included throughout the entire SEO period.

Real Client Results

A property agency in Subang Jaya had a website live for three years that had never ranked for any meaningful search terms. Within six months on SEO Premium, 14 of their 30 target keywords reached Page 1 of Google including competitive property listing terms. Organic enquiries went from near zero to an average of 25 per month without any paid advertising.

A private medical clinic in Shah Alam targeted specialist consultation keywords across Selangor. On SEO Ultra targeting 50 keywords, 22 keywords reached Page 1 at nine months. Organic appointment bookings increased by over 60 percent. The monthly SEO articles generated additional backlinks as patients shared them organically.
